**RE: Temp Tags**

The Louisiana Motor Vehicle Commission received the following email from Department of Public Safety, Office of Motor Vehicles:

"Good morning,

OMV discovered an issue yesterday afternoon in which the temp tag database used by dealers to input temporary tags issued was potentially unavailable from 06/27/2020-06/30/2020. The issue is now corrected and the temp tag database is functioning correctly. Please remind dealers that all temporary tags issued between these days **MUST** still be entered into the database.

Please let me know if you have any issues or concerns,

*Lauren Debetax*

Vehicle Section Manager  
Office of Motor Vehicles"
